Dear Mr. Mason:

*I very much enjoyed visiting the Community Health Centre and meeting the many large hearts who gave of themselves to bring it into existence. It's not often that you see a project with such resounding success, but I'm so glad that you and the people of Gabriola Island were the ones to benefit.*

*I've been meaning to write to thank you for the copy of your book titled Our Clinic, which is an insightful read. The story behind the clinic is remarkable and well-told and you have my thanks for your support of it and the lovely community you are so blessed to be a part of.*

*Again, thank you and best wishes.*

*Yours sincerely,*
