Charity Registration: 85193 0586 RR0001

May 27, 2019

Dear supporters of the Gabriola Community Health Centre,

As you probably know, the Gabriola Health Care Foundation (GHCF) is a non-profit society and a registered charity that owns, maintains and administers the Gabriola Community Health Centre on behalf of all the residents of Gabriola.

It is important that the Foundation can demonstrate strong community support as it works with the Health Authorities and other partners to bring better health care to the residents of the Island. Thus, the GHCF Board would like to significantly increase the registered membership in the Foundation and would encourage all those who support the Health Centre to join GHCF by going to its web site at [www.ghcf.ca](http://www.ghcf.ca) and clicking on the "Become a GHCF Member" button or by completing the membership form overleaf and sending it to GHCF.

The BC Societies Act provides that all societies should maintain a register of their members. After 2019 only those who have registered will be members of the society so please register as soon as you can. As well, please consider encouraging your family and friends to show their support by joining the Gabriola Health Care Foundation.

Please note that being a member of GHCF has no bearing on whether you might or might not be able to access any services provided in the Gabriola Community Health Centre.

There are no costs or fees to join or to remain a member. Your support will simply help to bring better health care for us all!

Thank you,

Chuck Connor, President  
Gabriola Health Care Foundation
